

School Administrator Discovers Simple Way to DOUBLE Vending Commissions and Slash Energy Costs by 77%

CASE STUDY: How the HUMAN Healthy Vending Program Increased Tomball ISD's Vending Commissions by \$4,192, Reduced Energy Costs by \$6,433, and Added an Extra \$10,625 to Their Bottom Line

Matt Antignolo, Director of Student Nutrition for Tomball TX ISD, made a controversial decision for his school - remove all 17 traditional vending machines and replace them with 4 HUMAN Healthy Vending machines.

Here are the official case study results:

CASE STUDY SUMMARY	Commission Increase	\$4,192
	Energy Savings	\$6,433
	Annual Value	\$10,625

*Note: These are just the DIRECT financial implications. Implementing a HUMAN Healthy Vending Program also increases your students' health & self-esteem, reduces absenteeism, reduces disciplinary action, increases overall student performance in school, and educates students on the benefits of a healthy lifestyle
