Vending Commission Comparison

“I genuinely believe that the company is trying to help us have more profit so that we can do what we need to do here... it feels like a community partnership.”

Principal Sarah Smoot at Irvington High School has more than doubled her vending machine commissions with HUMAN Healthy Vending as compared to her previous vendor, allowing her to fund band, chorus and other arts programs.

Q: Was it worth the hassle of changing vendors?

“Oh yeah, absolutely. To have twice the money to fund your programs and again to have that level of customer service where it didn’t even exist before... it just was a series of phone calls going back and forth so absolutely that was worth it to have what I have now.”
